

## RoHS Conformity Declaration

### Our Contribution to the protection of the environment:

As of July 1<sup>st</sup>, 2006 electrical and electronic products marketed within Europe have to meet the RoHS guideline, LEXEDIS ensures, that all its products are in full compliance.

Lexedis warrants to the best of its knowledge and barring exceptions, reservation, or exemptions listed in this statement of conformity, that all LED (Light Emitting Diode) devices as supplied by LEXEDIS LIGHTING GmbH comply with the directive 2002/95/EC of the European Parliament.

These hazardous substances encompass the following items:

- Lead (Pb)
- Mercury (Hg)
- Cadmium (Cd)
- Hexavalent Chromium (VICr)
- Polybrominated Biphenyls (PBB) and
- Polybrominated diphenyl ethers (PBDE)

This conformity declaration is based on:

- The RoHS conformity of all base materials for the manufacturing of our products (base material supplier statements)
- The RoHS conformity of all used supporting materials and process consumables.

**Scope:** pixiLED types

PX-1T455-W; PX-1T455-B; PX-1T455-G; PX-1A545-W; PX-1A545-B; PX-1A545-G; PX-1T450-M; PX-1T412-W

#### Limit:

This RoHS declaration relates to the raw materials and supplies used for manufacturing of our LED (light emitting diode) devices. This RoHS declaration does not imply product compliance with respect to increased thermal constraint in the customer assembly process, i.e. lead-free soldering, or any associated issues, which is subject to specific customer process qualification.

#### Exclusions:

None
